

SmartCare
Home Health Services

who we are

SmartCare Home Health Services (SmartCare) is a Joint Commission accredited licensed and certified agency that is committed to quality home care services. At SmartCare all patients and their families are treated with compassion, dignity and respect. We provide our patients with an excellent standard of care in a comfortable and familiar environment, their home, under the direct supervision of their physicians. Our philosophy is based on high moral integrity and professionalism.

our mission

Provide compassionate care and services to preserve quality of life, independence and to be the First Choice of Patients and Customers for Homecare needs.

our vision

Define the Future of Home Care by becoming the national benchmark for clinical excellence through innovation in academic research and leadership in legislative and policy reform.

our values

We are guided by common standards that drive our priorities, partnerships and organizational decisions. They guide our behaviors and judgments, including how we carry out our Mission and achieve our Vision.

SmartCare
Home Health Services

we do care

SmartCare is committed to helping you or your loved ones when needed. We are here to not only help you, but also help your family get through the hard time.

SmartCare provides a broad array of home care services including senior care and IV therapy; physical, occupational and speech therapy.

Employing a home health care professional is an important decision and one in which most people have little training or practice. SmartCare Home Health Services is a name that is trusted by physicians and patients. Our office deliver appropriate high quality home care and treat each patient with genuine, compassion, kindness and respect.

A SmartCare caregiver will be assigned to coordinate your care at home. They work with your physician to make sure all your needs are met. Your caregiver will make sure you receive specialized help, from emotional support, to physical therapy to wound care.
